

# CENTURION

## CONSTRUCTION GROUP, LLC

## HEALTH CARE

*With new technology, regulations and breakthroughs come opportunities to improve hospitals and medical facilities and provide higher levels of care for patients. Whether we are enhancing spaces, building new, adding on to an existing facility, integrating technology, or coordinating the installation of medical equipment, Centurion is prepared to provide a functional, modern facility for your staff and patients.*

*Centurion has extensive, demonstrated knowledge in the health care market with ASHE HCC Certification, proven expertise of ICRA containment, hospital protocols, health care environments, and patient awareness. More specifically, we have newly constructed or performed renovations in the following spaces: catheterization laboratories, dental, dermatology, linear accelerator, gamma knife, operating rooms, orthopedic, radiology, endocrinology, women's clinics, cafeterias, nurse stations, seclusion rooms, NICUs, birth places, mental health, naturopathic and medical office building spaces among others.*

*With our vast understanding of the health care market and its unique needs and concerns, Centurion will prove to be a strong partner for your next construction project. We look forward to the opportunity to serve you, your facility, and your patients with the utmost care, cleanliness and attention to detail.*
