

It is Centurion's desire to stand with you to take your ministry "beyond the walls" and build a better community. We believe in constructing environments that facilitate conversation, create an atmosphere of belonging, are safe, accessible, and provide space for relationships to grow. Together we can advance the kingdom by serving God and people.

BUILDING EXCELLENCE

Through Partnership, Process & Design

FAITH-BASED

SERVING WITH PURPOSE

As a *Certified Church Consultant* and prior member of the National Association of Church Design Builders, we are equipped to share faith-based financing, land development, design, and construction. You'll have access to our many local and national resources to assist in the responsible stewardship of all God's gifts. Our experience includes new construction and renovations of worship spaces, cafes, multi-purpose rooms and classrooms that incorporate modern and innovative audio-visual equipment, technologies, lighting, and beyond.

PROJECT PORTFOLIO

Faith-Based
