

With our extensive design-build experience we take the warehouse and storage industry to new heights from single to multi-level units. Whether your facility is built for self-storage or warehousing. Centurion understands the need to maximize rentable units and pallet positions while being sensitive to increasing demands for space efficiency and energy consciousness.

BUILDING EXCELLENCE

Through Partnership, Process & Design

WAREHOUSE + STORAGE

SERVING WITH PURPOSE

We work with you to optimize layout, value, and constructability, while planning for future growth.

As a prior member of the Self Storage Association (SSA), we are committed to serving the mid-Atlantic region. We are equipped to implement the environmental controls and construction processes necessary for any project. Our experiences ranges from mini storage, cold & dry storage warehousing, agricultural (grain bins, feed, fertilizers), to distributions centers.

PROJECT PORTFOLIO

Warehouse + Storage
